EDUCATION

Ph.D Candidate

2014 - 2019

Institute for Computational and Mathematical Engineering

Stanford University, Stanford, CA

Advisors: Michael Saunders and Yinyu Ye

B.Sc. with Distinction

2010 - 2014

Combined Honours Math and Computer Science

University of British Columbia, Vancouver, BC

EXPERIENCE

Google, Mountain View, CA

Summer 2017

PhD Research Intern, LASER Team

- Studied new approach to low-rank matrix completion with applications to recommendation systems (such as movie or music recommendations) and word embeddings.
- Implemented high performance solver for alternating least-squares in Python using NumPy and SciPy for low-rank matrix completion.
- Demonstrated cases where proposed variant outperforms traditional low-rank matrix completion approach.

University of British Columbia, CS Department, Vancouver, BC

Summer 2016

Research Assistant

- Developed family of iterative solvers for (possibly non-symmetric) saddle point systems arising from engineering problems under the supervision of Dr. Chen Greif.
- Showed methods in this new family are often competitive with existing approaches.
- Paper published in SIAM Journal on Scientific Computing.

Microsoft, Redmond, WA

Summer 2015

Software Development Engineering Intern, Elastic Scale Team

- Implemented feature for distributed database transactions in the cloud for SQL Server.
- Project was completed from scratch, with design document, testing and implementation accomplished within the internship.
- Details to follow when feature is in public preview.

Microsoft, Redmond, WA

Summer 2014

Software Development Engineering Intern, Elastic Scale Team

- Designed time synchronization scheme for Azure datacenters across the world.
- Implemented prototype of scheme in C# as Azure Cloud Service.
- Prototype achieved millisecond synchronization within datacenters, sub-second synchronization across datacenters.

Google, Waterloo, ON

Summer 2013

Google Summer Software Engineering Intern

- Developer for mobile and iOS Gmail, client and server-side, working in Java, Javascript.
- Responsible for writing design documents, implementation, and testing of projects.
- Intern projects resulted in first network responses to return 75% faster than before.

Mathematics Department, UBC

Summer 2012

NSERC USRA Research Assistant

- Worked with Dr. Richard Anstee on problems in Extremal Hypergraph Theory.
- Discovered and proved theorems as well as other results recorded in a booklet of notes.

TEACHING

Instructor: CME 258: Libraries for Numerical Linear Algebra and Optimization **Spring 2018**

Teaching Assistant: CME 307: Optimization

Winter 2017

Head Teaching Assistant: CME 302: Numerical Linear Algebra

Fall 2016, 2017

Instructor: Linear Algebra ICME Refresher Course

Summer 2016

Teaching Assistant: CME 302: Numerical Linear Algebra

Fall 2015

Undergraduate Teaching Assistant: Math Portion of Science One

2012

PEER REVIEWED PUBLICATIONS

- Ron Estrin and Chen Greif. SPMR: a family of saddle-point minimum residual solvers. *SIAM J. Sci. Comput.*, 40(3):A1884–A1914, 2018.
- R. Estrin, D. Orban, and M. A. Saunders. LSLQ: An iterative method for linear least-squares with an error minimization property. *SIAM J. Matrix Anal. Appl.*, 2017, accepted for publication.
- R. Estrin and C. Greif. Towards an optimal condition number of certain augmented Lagrangian-type saddle-point matrices. *Numer. Linear Algebra Appl.*, 23(4):693–705, 2016.
- R. Estrin and C. Greif. On nonsingular saddle-point systems with a maximally rank-deficient leading block. *SIAM J. Matrix Anal. Appl.*, 36(2):367–384, 2015.

TECHNICAL REPORTS

- R. Estrin and M. P. Friedlander. A perturbation view of level-set methods for convex optimization. *Mathematics of Computation*, 2018. Submitted.
- R. Estrin, M. P. Friedlander, D. Orban, and M. A. Saunders. Implementing a smooth exact penalty function for nonlinear optimization. 2018. In progress.
- R. Estrin, D. Orban, and M. A. Saunders. Euclidean-norm error bounds for SYMMLQ and CG. *SIAM J. Matrix Anal. Appl.*, 2018. Submitted.
- R. Estrin, D. Orban, and M. A. Saunders. LNLQ: An iterative method for least-norm problems with an error minimization property. *SIAM J. Matrix Anal. Appl.*, 2018. Submitted.

PRESENTATIONS

- | | |
|---|------------------|
| Pacific Northwest Numerical Analysis Seminar. Vancouver, BC. | Oct 2018 |
| UBC SCAIM Seminar. University of British Columbia. | Sept 2018 |
| SIAM Annual Meeting. Portland, OR. | July 2018 |
| SIAM Applied Linear Algebra Poster Session. Hong Kong. | May 2018 |
| Conference on High Performance Scientific Computing. Hanoi, Vietnam. | Mar 2018 |
| Sandia National Labs. Albuquerque, NM. | Feb 2018 |
| Stanford LA/OPT Seminar. Stanford University. | Oct 2017 |
| SIAM Computational Science and Engineering. Atlanta, GA. | Feb 2017 |
| SIAM Annual Meeting Poster Session. Boston, MA. | July 2016 |
| ICME Student Seminar. Stanford University. | Oct 2016 |

ACADEMIC HONOURS AND AWARDS

- | | |
|--|-------------|
| Centennial Teaching Assistant Award (School of Engineering) | 2018 |
| • For outstanding service and dedication to classroom instruction for Stanford students. | |
| ICME Teaching Fellow | 2018 |
| SIAM Applied Linear Algebra Student Travel Award | 2018 |
| ICME Excellence in Teaching Award | 2017 |
| Gene Golub Fellowship Award | 2014 |
| • For academic excellence and research potential for incoming ICME students. | |
| Governor General's Academic Silver Medal | 2014 |
| • For highest academic standing in Science Department among graduating class. | |
| Dr. R. D. James Medal in Mathematics | 2014 |
| • For student in Math Dept. with most outstanding record and promise in the field. | |
| CRA Outstanding Undergraduate Award Honourable Mention | 2014 |

SERVICE

Journal Reviewing

- SIAM Journal on Scientific Computing
- SIAM Journal on Matrix Analysis
- Numerical Algorithms

ICME Computational Consulting 2014-2018

- C² is a free consulting service offered by ICME students for the Stanford academic community for any help they may need with their computational, numerical or mathematical problems.
- Leader of C² from 2015-2017.

UBC Math Circle Co-Leader 2012 - 2014

- Coordinated group of volunteers for high school outreach program.
- Oversaw development of faculty lectures and problem sets for students.

EXTRACURRICULAR ACTIVITIES

Taekwondo

- Competed for Stanford's Taekwondo team.
- Won the silver medal at the 40th and 42nd National Collegiate Taekwondo Championships in the red belt, welter weight division.

Tennis

- Instructed group lessons.
- Competed in local tournaments.
